A Letter from the Founder – Jacob DiMartino

To our Neighbors, Partners, and Fellow Guardians,

My journey began in 1998 in Scottsdale as an 18-year-old in the tech startup world. Over the last 25 years from building high-growth technology solutions to being named "Mentor of the Year" by my teams I've learned one critical truth: Success isn't about the software you build; it's about the community you protect.

Today, I am bringing that lifetime of innovation to the most important mission of my life: Youth Angel. We are living in an era where the digital world moves faster than our ability to protect our children. I've spent my career scaling platforms and managing complex projects, but I've realized the greatest "product" we can offer isn't just technology—it's peace of mind. Youth Angel is where my history in tech meets my heart for the community. We are taking world-class monitoring tools and providing them to every family for free, because safety should never be a luxury.

At Youth Angel, Impact is in our DNA. We aren't just monitoring; we are leading a high-energy movement to ensure no parent ever fights this battle alone. I've spent two decades learning how to scale organizations now, I'm using those same tools to scale safety for the next generation.

Are you in?

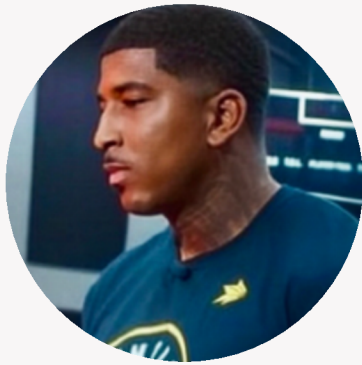

In service of the mission,

Jacob DiMartino

Jacob DiMartino President & Founder, Youth Angel

Leadership Team

Gary Smith is a 7-time slam dunk champion, NBA2K motion capture athlete, and co-founder of the entertainment brand Jurassic Fight Night. A dynamic entrepreneur and content creator, Gary owns Top Floor, a company that connects elite athletes with brand and media opportunities. He's also an @NBA and @Sprite Uncontainable signee, recognized for his explosive athleticism and creative influence in sports entertainment. As a brand ambassador for The RAADR App, Gary brings deep industry connections, event production expertise, and a proven ability to engage youth audiences, supporting the app's mission through celebrity recruitment, strategic sponsorships, and national anti-bullying initiatives.

Larry Sanders is a retired NBA center, mental health advocate, writer, and gold record producer. Drafted 15th overall by the Milwaukee Bucks in 2010, he became one of the league's top shot blockers before walking away from a \$44 million contract to prioritize his mental health. Today, Larry leads youth basketball programs, produces music, and runs the Sanders House Foundation, which promotes mental wellness and emotional resilience among athletes and young people. As a brand ambassador for The RAADR App, Larry brings authenticity, advocacy, and creative reach, helping to destigmatize mental health, recruit influential partners, and expand the app's impact in schools and sports communities.

Zach Andrews is a professional Hollywood stunt performer and former NBA athlete with global reach. After playing four years of college basketball at Bradley University, he joined the Los Angeles Lakers and continued his career overseas for 15 years. Now a SAG-certified actor, Zach is best known as LeBron James' stunt double, with credits across film, television, and video games. As a brand ambassador for The RAADR App, Zach leverages his athletic and entertainment network to promote the platform, recruit celebrity partners, and support national anti-bullying initiatives.

Who is Youth Angel

At Youth Angel, we are a community-led movement dedicated to reimagining digital safety as a collective mission. We aren't just a nonprofit; we are a "Community Safety Net" built to ensure that no child and no parent ever walks alone.

Our mission is to provide the infrastructure where "Safety is a Team Sport," bringing together parents, kids, and community leaders to protect our youth from the unseen shadows of the internet.

We envision a future where every child is seen and every family is supported. Our goal is to lead by example, transforming Arizona into a flagship of child protection that sets the national standard.

Youth Angel is fueled by the spirit of impact and the cutting-edge technology of RAADR. By integrating real-time monitoring of social platforms, we give families the data they need to lead critical conversations and prevent crises before they occur.

*We Are the Guardians.
We Are Youth Angel.*

The Mission: We Are the Guardians

Youth Angel is a community-led movement **reimagining digital safety** as a collaborative mission. Inspired by the urgency of the S.O.S ACT (Save Our Students), we serve as the proactive shield for Arizona's youth, making safety enforceable and measurable.

The Goal:

To set the national standard for child protection, leading by example to ensure every child is seen and every digital space is safe.

The Approach:

We partner with families, schools, and law enforcement to create a "Community Safety Net" that levels the playing field for every child.

The Crisis:

Why We Must Act Now

37%

37% of middle and high school students have been cyberbullied, with 30% experiencing it in just the last month.

The Digital Onslaught

12-18

Cyberbullying and peer pressure peak between **ages 12-14, while ages 15-18** see a rise in violence and substance exploitation.

Critical Vulnerability

50%

Youth under 25 who are cyberbullied are over **50% more likely to self-harm** or experience suicidal ideation.

Psychological Toll

70%

70% of students report that cyberbullying has negatively impacted their academic grades.

Real-World Consequences

The Solution:

Three Pillars of Impact

We have broken our mission into **three high-impact categories** to protect against the most urgent risks:

Digital Equity & Safety

We monitor major platforms—Instagram, TikTok, X, and Meta—flagging harmful behavior in real-time.

- **Decoding Threats:** We identify and alert parents to various forms of digital aggression, including Doxxing (leaking private info), Catfishing (fake profiles), and Cyberstalking.
- **Real-Time Guardianship:** Using the RAADR technology, we provide instant alerts on harmful keywords and behavior, allowing for immediate intervention.

Crisis Prevention & Health

We take a proactive stand against the substance abuse crisis and mental health struggles.

- **Opioid Risk Tracking:** Our tools detect and report on risks associated with traffickers and exploitation.
- **Mental Health Vigilance:** We monitor for signs of distress, such as withdrawn behavior or suicidal thoughts, connecting families to local recovery resources.

Real-Time Collective Action

In an emergency, every second is a victory. We've built the infrastructure for a coordinated response.

- **The S.O.S Alert System:** Our technology delivers instant notifications to police, educators, and parents simultaneously. (Referencing the S.O.S Act Technology Solution).
- **Unified Partnerships:** We integrate with government and tribal entities to ensure that help is always within reach for every demographic.

The Technology: Youth Angel Powered by RAADR

The Youth Angel app is a "peace-of-mind provider".

Eyes Everywhere

Monitor social media in real-time to catch bullying as it happens.

Anonymous Reporting

We give students the confidence to report issues without fear, fostering a culture of accountability.

Free for All

Safety shouldn't be a luxury. Our app is free for every family, always.

Youth Angel App
Powered by RAADR

Programs & Initiatives

1

- **The Initiative:** Establish "Guardian Circles" in local middle and high schools—student-led groups trained in digital citizenship and peer support.
- **How it Works:** Using the RAADR app's anonymous reporting features, students can flag concerns (bullying, threats, or mental health crises) without fear of social suicide.
- **The Impact:** It addresses the "vulnerable ages" of 12–14 identified in the S.O.S ACT by providing a safe space for peer-to-peer accountability and rapid adult intervention.

Safety isn't a solo sport—join your school's Guardian Circle and protect your tribe.

The "Guardian Circle" School Network

This initiative transforms the S.O.S ACT from a legislative concept into a lived reality within schools. It focuses on creating a unified safety net between students, educators, and the Youth Angel platform.

Programs & Initiatives

2

- **The Initiative:** A community-led workshop series that teaches parents and kids how to "Decode the Digital Maze."
- **How it Works:** Workshops focus on the forms of cyberbullying found in the Cyber-Shadows guide (Catfishing, Doxxing, and Cyberstalking). We provide hands-on training for the Youth Angel app so parents can set "Digital Boundaries" that empower rather than restrict.
- **The Impact:** It levels the playing field for the 95% poverty-level demographic (as seen in the UYE structure) by providing free access to premium safety tech and the knowledge to use it effectively.

Lead the conversation. Master the tools. Own the future.

"Digital DNA" Equity Workshops

Building on the "Digital Equity & Safety" pillar, this program ensures that "Safety shouldn't be a luxury" by providing high-level digital literacy training to underserved families.

Programs & Initiatives

3

- **The Initiative:** A formal integration program that connects the Youth Angel app's real-time data with local law enforcement, hospitals, and recovery centers.
- **How it Works:** When the app detects high-risk keywords related to opioid distribution or self-harm (as outlined in the S.O.S ACT), it triggers a "Community Alert." This doesn't just notify a parent; it opens a direct, data-driven pipeline to the specific local agency that can help in seconds.
- **The Impact:** It shifts the community from reactive response to proactive prevention, specifically targeting the violence and substance exploitation risks prevalent in ages 15–18.

In an emergency, every second is a victory. We've built the bridge—are you across it?

The "SOS Rapid Response" Partnership

This is the "Real-Time Collective Action" pillar in motion, focusing on the most critical threats: opioids and campus violence.

Corporate Sponsorship Opportunities

How we put your support to good use

STRATEGIC

5,000

Strategic Sponsorship Provides:

One year of Group Home Services for 25 youth.

Admission to all Outreach Events for 65 youth.

All Summer Enrichment Program supplies.

INNOVATIVE

\$10,000

Innovative Sponsorship Provides:

Hygiene Welcome Kits for 250 children and youth.

The One Bright Star Event event for 300 children.

Workforce training and apprenticeships for 60 teens.

VISIONARY

\$15,000

Visionary Sponsorship Provides:

Complete Aging Out resources and services for 17 teens.

Restoring Dignity Room resources for 130 girls.

School event and school supplies for 80 youth.

Donate Today

We are grateful to all of our donors who invest in the lives of our community.

All donations are tax deductible and will receive a donation receipt for tax purposes.
